

Tridium Honored by AT&T as Outstanding Supplier

RICHMOND, VIRGINIA, June 10, 2007 – Commitment to excellence over the past year has earned Tridium recognition as an outstanding supplier to AT&T Inc. (NYSE: T), one of the world's leading data, voice, wireless and Internet services providers.

"We are proud of our long-standing tradition of providing unparalleled products and services to our business and residential customers," said Maureen Merkle, President, AT&T Procurement. "We're successful on that front in large part thanks to supplier partners like Tridium that consistently go above and beyond the call of duty."

Tridium received one of 39 supplier recognition awards for its work in helping AT&T deliver outstanding service to its customers during the past year. Tridium was recognized for its contributions in the Technical Innovations category.

"This is a real honor for Tridium, and it reflects our commitment to provide technology innovation and excellence in order to meet the specific needs of our customers," said Steve Fey, Tridium president. "We place great importance on developing new ways to make it easier to deploy our technology across multiple industry segments."

As part of its annual supplier recognition program, AT&T took out a half-page ad in the June 5, 2007, edition of *The Wall Street Journal* to publicly thank the selected companies.

About Tridium Inc.

Tridium, a global software and technology company, is the inventor of the Niagara Framework[®], a software framework that integrates diverse systems and devices - regardless of manufacturer, or communication protocol - into a unified platform that can be easily managed and controlled in real time over the Internet using a standard web browser. Niagara is an extensible platform that supports the rapid development of a wide range of Internet-enabled products and device-to-enterprise applications.

Manufacturers adopt the Niagara Framework technology to move their products to the web, reduce development time, migrate legacy systems, develop new service offerings, and open up new markets. System integrators use Niagara products to provide true open solutions without regard for specific protocols, products or technologies. Today, there are over 78,000 instances of Niagara operating in over 6,500 installations worldwide in applications that include: energy management, building automation, M2M, telecommunications, security automation, lighting control, maintenance repair operations (MRO), service bureaus, convergence retailing and total facilities management – all realizing improved operational efficiencies, reduced costs and greater returns.

Tridium markets its products to value-added resellers, original equipment manufacturers and a network of Tridium Systems Integrators. The company is an independent business entity of Honeywell International Inc.
