

VYKON at 2010 AHR Expo

Open, Intelligent Building Automation and Control Solutions Creating Smarter Buildings

RICHMOND, VIRGINIA, January 5, 2010-VYKON® today announced that it will be have on display and will be demonstrating its full line of open, intelligent building and control solutions at this year's 2010 AHR Expo, January 25-January 27 at the Orange County Convention Center, Orlando, Florida. VYKON will be located at booth # 1010.

On display will be the latest portfolio of software and hardware designed for building automation, facility management, security and energy management. Powered by the Niagara^{AX} Framework[®], VYKON Solutions enable facility managers, building owners, and systems integrators to integrate proprietary and otherwise incompatible products into a unified enterprise solution through the synchronization, management and control of major building system functions vital in a facility, such as heating, ventilating, and air conditioning (HVAC) systems, energy, lighting, security, fire, safety and more.

In addition to the VYKON solution portfolio, several VYKON partners will also be demonstrating specific applications that compliment VYKON products.

2010 AHR Expo

When: January 25-January 27

Where: Orange County Convention Center, Orlando, Florida

VYKON: Booth # 1010

About VYKON

VYKON® is an open, intelligent building automation and control solution that meets all the challenges of real-world integration and enterprise connectivity and ensures complete interoperability among diverse facility systems.

Powered by the Niagara Framework, VYKON Solutions utilize a highly scalable architecture that fits a single building or an entire global campus and are deployed in office buildings, data centers, hotels, airports, manufacturing plants, hospitals, convenience stores, restaurants, churches, schools and universities.

VYKON Solutions offer compelling value to building owners and facility management including lower operational costs, reduced operational expenses, improved facility operations, greater control, manageability and security of building operations, reduced energy costs and increased occupant/tenant satisfaction.

Additional information about VYKON is available at www.vykon.com.
