announcement

EOL of legacy JACE platforms 700, 300E and 600E

The performance, flexibility and range of accessory options offered by the JACE® 8000 surpasses that of the legacy JACE platforms, and components of the legacy platforms are becoming obsolete.

With the introduction of Niagara AX version 3.8u1 featuring JACE 8000 support, VYKON's next-generation hardware platform that's optimized for Niagara 4 now optimizes the features of Niagara AX.

Be sure to register for the next TridiumTalk focused on Niagara product releases that simplify migration:

Tuesday, August 2 — 11:00-11:45 a.m. ET

VYKON will begin the End of Life (EOL) process for the legacy JACE 700 platform over the coming months. Following the JACE 700 EOL, the EOL for the 300E and 600E will begin.

Please note these **Last Time Buy (LTB)** dates, subject to product availability:

JACE 700 – January 2, 2017

JACE 300E – July 1, 2018

JACE 600E – July 1, 2018

More information on VYKON's EOL policy can be found on your price list.

Ordering information:

Part number	Description	Start of EOL	LTB	Replacement recommendation
J-300E	JACE 3E Controller	1/2/2017	7/1/2018	J-8005/J-8010/J-8025
