BUILDING AUTOMATION

Jace[®] 9000

License Transfer Promotion

PROMOTION:
AVAILABLE UNTIL
OCTOBER 31, 2026

FUTURE-PROOF YOUR BUILDING AUTOMATION: TRANSFER YOUR JACE[®] 8000 LICENSE TO A JACE[®] 9000

As the building automation landscape evolves, so should your technology. We're excited to announce a limited-time license transfer promotion that allows you to move your Niagara Framework[®] software license from a JACE 8000 to the new, high-performance JACE[®] 9000. During this promotion, you can **swap a JACE 8000 license for a JACE 9000 license by paying just a license-transfer fee, instead of the full cost for a new JACE 9000 license.**

This promotion is designed to help you seamlessly transition to the next generation of Niagara hardware, preparing your systems to be ready for the upcoming Niagara 5 release. (Note: JACE 8000 will not support Niagara 5)

WHY UPGRADE TO JACE 9000?

The JACE 9000 is engineered for the future of smart building control:

- **Enhanced Performance:** Faster processing and improved memory for more demanding applications.
- **Stronger Security:** Built with modern cybersecurity standards to protect your building data.
- **Niagara 5 Compatibility:** Fully compatible with Niagara 5, ensuring long-term support and innovation.
- **Seamless Migration:** Transfer your existing license and configurations with minimal disruption.

MAXIMIZE YOUR SMA VALUE

Your active SMA already gives you access to the latest Niagara Framework[®] releases. Now, it also unlocks the ability to carry your license forward to the JACE 9000 - helping you stay current, secure, and ready for what's next.

ELIGIBILITY, TERMS & CONDITIONS

ELIGIBLE HARDWARE

- Only JACE 8000 and JACE 834 models are eligible

ACTIVE SMA REQUIRED

- JACE 8000 must have an active Software Maintenance Agreement (SMA) at the time of license transfer

OTHER REQUIREMENTS

- **New Hardware Purchase:** You must purchase and have an available unlicensed JACE 9000 controller and SD card to complete the transfer
- **Transfer Fee:** A license transfer fee applies per JACE device (part number: LIC-CHG-UPG)
