

## Announcements

### New VYKON Tenant Billing Service and Niagara AX CCN Driver Now Available

VYKON is pleased to announce the immediate availability of two new products.

#### **VYKON<sup>®</sup> Tenant Billing Service**

The VYKON Tenant Billing Service (VTBS) is a Niagara<sup>AX</sup> Framework application which enables users to easily monitor tenant utility usage and create invoices based on that usage. The application serves as both a monitoring and invoice generation tool, allowing invoices to be manually or automatically generated for a variety of utility usage patterns. VTBS is designed to operate with the VYKON AX Supervisor. VTBS accesses historical data collected by a VYKON AX Supervisor which is capable of collecting consumption and occupancy data.

The following documents are available in support of VTBS:

- 
- [Data Sheet](#)
  - [User Manual](#)
  - [PowerPoint](#)
- 

#### **Niagara<sup>AX</sup> CCN Driver**

This new driver works within the Niagara<sup>AX</sup> Framework Driver Architecture (Release 3.5 or higher) and provides integration of Carrier Comfort Network Controllers with JACE<sup>®</sup> platforms including the JACE-NXT and embedded JACEs such as the JACE-6 and JACE-7 series controllers.

The following documents are available for this driver:

- 
- [General Release Letter](#)
  - [Niagara<sup>AX</sup> User Manual](#) (Niagara Central access required)
  - [PowerPoint](#)
-
